NOW Photo Rewards™

REVENUE ENGINE #31 | CAPTURE. SHARE. DISCOVER. EARN.

The concept: NOW users contribute authentic photographs of real-world places and receive merchant-funded rewards that encourage future bookings.

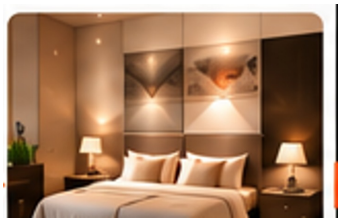

1. Discover a place

A user discovers a restaurant, café, hotel or local experience on NOW. If the listing lacks authentic photography, NOW invites them to contribute after visiting.

2. Capture & upload

The visitor uploads original photos of the venue, food or atmosphere. NOW checks quality, relevance, permissions and authenticity before publication.

3. Earn a reward

Once approved, the user may receive a participating merchant-funded reward: for example 10% off their next eligible booking, a complimentary coffee or an exclusive offer.

4. Book & return

The customer returns through NOW to redeem the reward. The merchant gains visibility and potential repeat business. NOW can earn commission on an eligible completed booking.

How NOW makes money

Illustrative restaurant transaction: €100 meal, 10% merchant-funded discount, 8% NOW commission on the discounted €90 bill.

Customer savings	NOW gross commission
€10.00	€7.20

Illustrative economics only: before taxes, refunds, processing fees and other costs. Merchant agreements are required.

Four revenue opportunities

Booking commissions: Revenue on qualifying completed bookings.

Merchant-funded reward campaigns: Participating merchants fund incentives to attract returning customers.

Premium merchant tools: Subscriptions for photo moderation, gallery management and performance analytics.

Repeat bookings: Richer profiles and earned rewards may encourage additional eligible transactions.

The NOW Photo Rewards flywheel

→ More authentic user photos

→ Richer, more useful venue profiles

→ More discovery and potential bookings

→ Merchant-funded rewards and repeat visits

Safeguards

Photos must be original or properly licensed, with permission to display them. NOW should moderate uploads, prevent duplicate or fraudulent submissions, protect people’s privacy, and clearly disclose reward conditions. Rewards must not depend on positive reviews. Discounts and commissions require merchant agreements.

Investor positioning

“NOW turns its community into a global network of authentic experience contributors. Every useful photo can improve discovery, encourage loyalty and create new commercial opportunities.”

Strategic fit: NOW Photo Rewards™ connects directly to NOW Rewards Network™, NOW Demand Exchange™ and NOW for Business.
